LUBRICANTS
The Green Performer

SAVSOL CUT HL-35 (EDM Oil)

Description:

SAVSOL CUT HL-35 is specially developed thin water white fluid with high flash point. It is ideally suited for the use in electrical discharge machines as long life working fluid. It has the right viscosity, excellent oxidation resistance, low evaporation loss. It is non-toxic and odourless in nature. In addition to high dielectric strength, it offers uniform insulation and permits controlled electrical discharge at the Break Down Voltage.

Recommendation:

SAVSOL CUT HL-35 is used as a high performance Dielectric Fluid for Electrical Discharge Machine (EDM).

SAVSOL FLUID 7WW (Rolling Oil)

Description:

SAVSOL FLUID 7WW is a high performance metal working fluid blended from highly refined base oil for rolling of copper alloys, brass and other ferrous metals. It contains anti-oxidants, metal deactivators and defoaming additives to offer superlative performance.

Recommendation:

SAVSOL FLUID 7WW used in the rolling operation for machining copper alloys, brass and non-ferrous metals.

SAVSOL FLUID 12WW (Mould Release Oil)

Description:

SAVSOL FLUID 12WW is a mould releasing oil blending with highly refined base oil with premium additives to offer excellent oxidation stability and de-foaming properties.

Recommendation:

SAVSOL FLUID 12WW is used as mould releasing agent during the manufacture of glass products.
